Campus Bodily Fluid Clean-up Response

**Bodily Fluid**: Any fluid in the body or secretion of the body including blood, urine, feces, sputum, saliva & vomit.

**NOTE**: Universal Precautions is an approach to infection control. According to the concept of Universal Precautions, all human blood and certain human body fluids are treated as if known to be infectious for HIV, HBV, and other bloodborne pathogens.

Universal precautions shall be observed to prevent contact with blood or other potentially infectious materials. Under circumstances in which differentiation between body fluid types is difficult or impossible, all body fluids shall be considered potentially infectious materials.

---

**Bodily Fluid Discovered**

1st Shift
RD/RA to contact Physical Plant

2nd Shift
RD/RA to contact Physical Plant/UP

(1st Shift) RD/RA to notify Physical Plant; Physical Plant to notify Custodial Supervisor
(2nd Shift) RD/RA to notify Physical Plant; Physical Plant to notify Custodial Supervisor.

Universal Precautions to be followed; Custodial Staff to manage Bodily Fluid clean-up and ensure the area has been thoroughly cleaned & disinfected.

3rd shift &/or No Custodial Staff
Summer
RD/RA to contact Physical Plant / UP

The Physical Plant or University Police (when PP is not staffed or unavailable) will call the Custodial Supervisor:
Custodial Supervisor will select at bloodborne Pathogen trained custodian from the on-call list to manage the cleanup and to ensure the area has been thoroughly cleaned & disinfected.
The custodian will then call UP to inform them that they are off-site.
