

# ***RAPID RECERT***

***At SUNY Cobleskill***

## **WHAT'S THE PURPOSE OF A RAPID RECERT?**

It allows a currently certified AEMT who has remained clinically active and competent, to take the State PSE and written recertification exams without having to complete a refresher course.

## **WHO IS ELIGIBLE?**

The determination is made solely by the Agency Medical Director. It's based on, but not limited to, direct clinical observation, evaluation of performance, and continuing medical education (CME). If the Service Medical Director affirms that the applicant is clinically competent and qualified to continue practicing, the AEMT can apply for admission to an AEMT Rapid Recertification exam.
