Colleagues,

Open SUNY is excited to announce the release of the SUNY Exam Proctoring System (EPS) developed in partnership with Stony Brook University.

The SUNY Exam Proctoring System is a tool that provides online students with a simple web-based interface to search, locate, and suggest proctored testing centers in New York State. The description for each testing center is searchable within the SUNY Exam Proctoring System. The description contains location and contact information, and it outlines any applicable fees. In addition to locating testing centers, students and faculty can use the system to suggest a test center if they are unable to find one in their geographic location.

In order to harness the true power of this application, we ask that you disseminate this solution broadly amongst your colleagues to expedite the growth of information contained within it, so it can grow into a robust repository of proctored testing centers in New York State. If student and faculty users have any troubles using the system, they can contact the Open SUNY HelpDesk at http://open.suny.edu/help for assistance.

You can access the SUNY Exam Proctoring System by navigating to http://open.suny.edu/proctoring, and clicking on the "SUNY Exam Proctoring System" button.

If you have any comments about the SUNY Exam Proctoring System, please contact Doug Cohen directly at doug.cohen@suny.edu.

Best,
Carey
