

AMBASSADOR TRAINING GUIDE

Purpose of the program:

1. Help non-academic (non-credit) areas develop, refine, and communicate their assessment processes.
2. Help non-academic (non-credit) areas use Taskstream.

Role of the Ambassadors:

1. Help areas
 - Develop goals, outcomes, measures, and targets
 - Document findings and action plans
2. Help areas involve staff in the assessment process and share results across campus.

Ambassadors:

1. Administrative Services
 - Amanda Crump
 - Megan Warren
 - Sean Conklin
2. Student Affairs
 - Kristin Roberts
 - Theresa Minckler
 - John Kennedy
3. Academic Support Services
 - Johanna Lee, Chair
 - Patrick Massaro
 - Erin Lassial

DEFINITIONS

GOAL: This is the big picture of what your department does and should support the mission of the department. It is the same, year after year, yet should be looked at periodically, reviewed and discussed. Goals must tie to the institution's strategic goals, such as student success (retention).

OUTCOME: As a result of achieving this big picture (these goals), what would you like to see happen?

MEASURE AND TARGETS: How will you make this happen? What will you do?

Measure: Think beyond your daily business and focus on those things that will really move your department forward to meet your goals. What new initiatives, significant improvements, or strategies to meet challenges would advance the goals of your department and move it forward? Measure will include the thing(s) that you will do to reach your outcome. Describe your measure and include rationale for what and why you are doing what you are doing,

Target: How will you know that you have been successful? Targets should be quantifiable i.e. percentage, number, relative change.

Include timeframe or target date.

FINDINGS: What happened?

ACTIONS: (Institutional Scorecard, Planning): As the result of your findings, what are you going to do? Do the findings indicate a simple fix, a tweak or a need to revisit the measure/targets and do something different? If the action required is significant, you may want to include it in the following year's assessment plan.

EXAMPLES

GOAL: Provide support to student with disabilities

OUTCOME: Remove barriers to access and participation

MEASURE: Use communication template

Description of Measure: Disabilities may affect the ability of a student to access course content or participate in class. Subsequently, students with disabilities (SWD) may face challenges communicating to their instructors their need for accommodations such as extended testing time. To help SWD communicate more effectively with their instructors, Disability Services has created a template for SWD to use when requesting accommodations.

Target: 90% of students registered with Accommodative Disability Services will rate that Disability Services improved their ability to communicate their need for accommodations with their instructors.

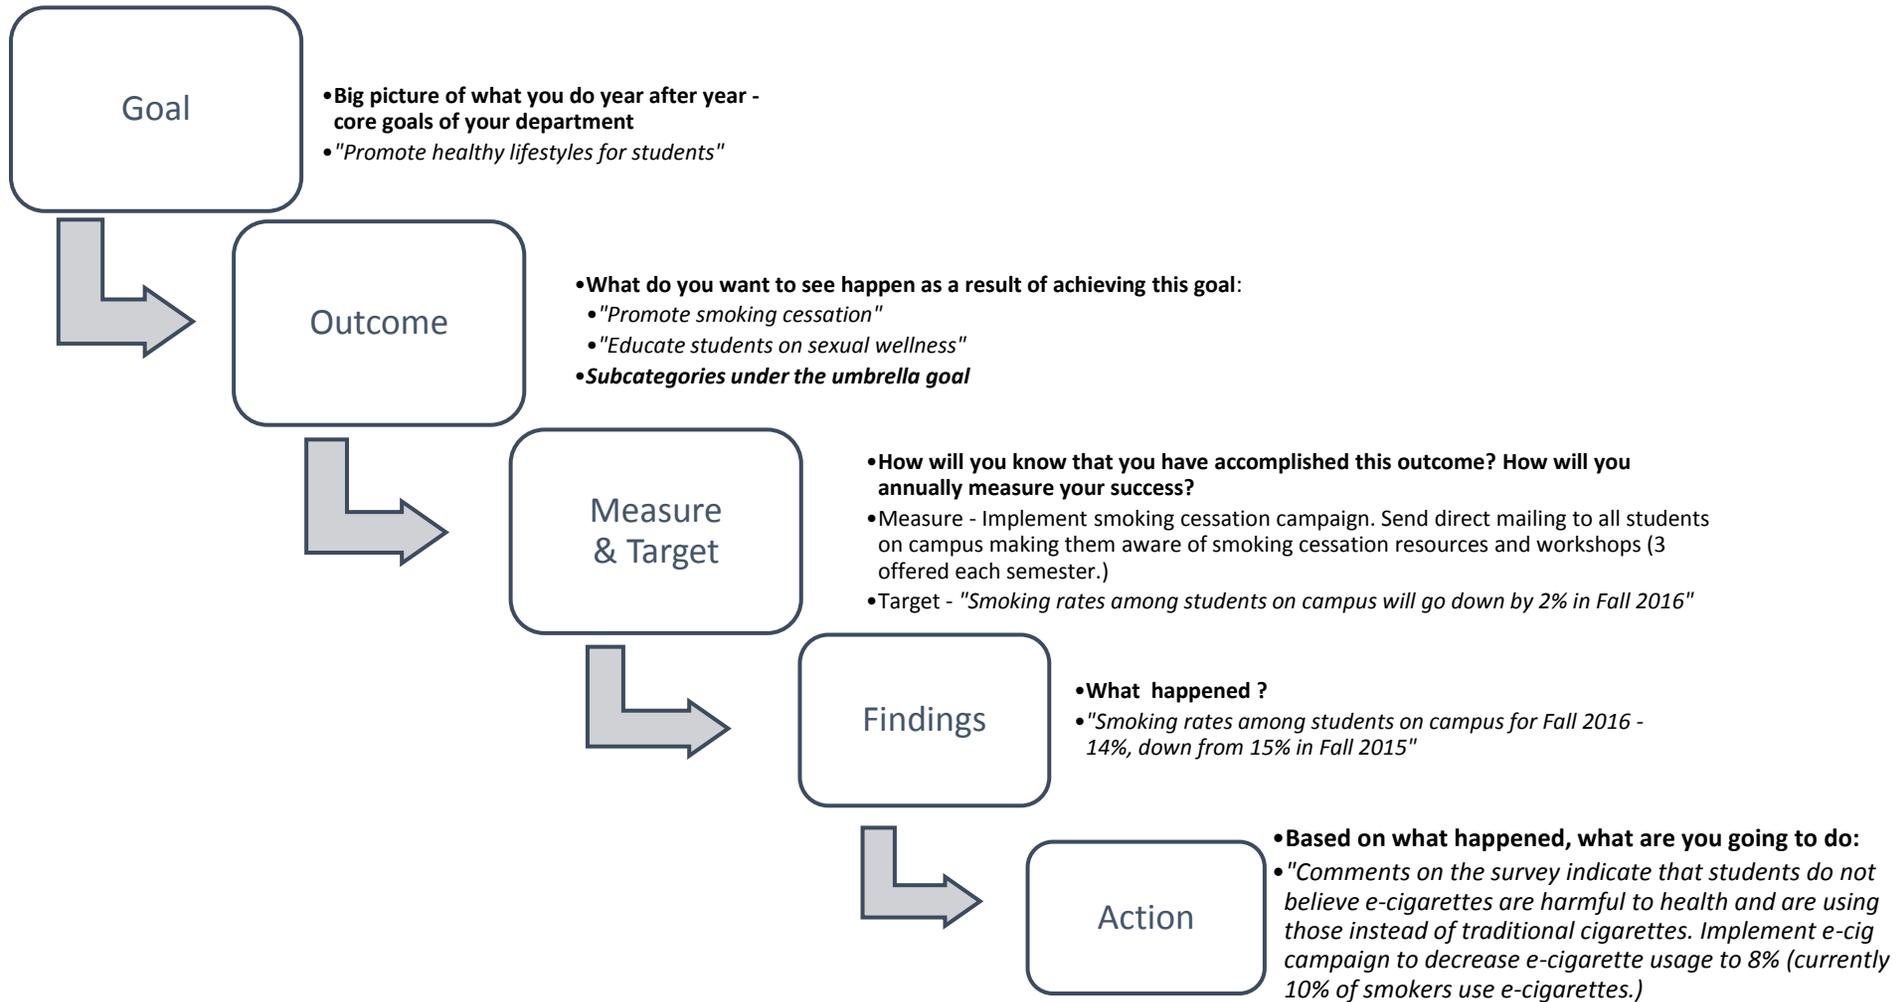

GOAL: Enhance and support faculty advising

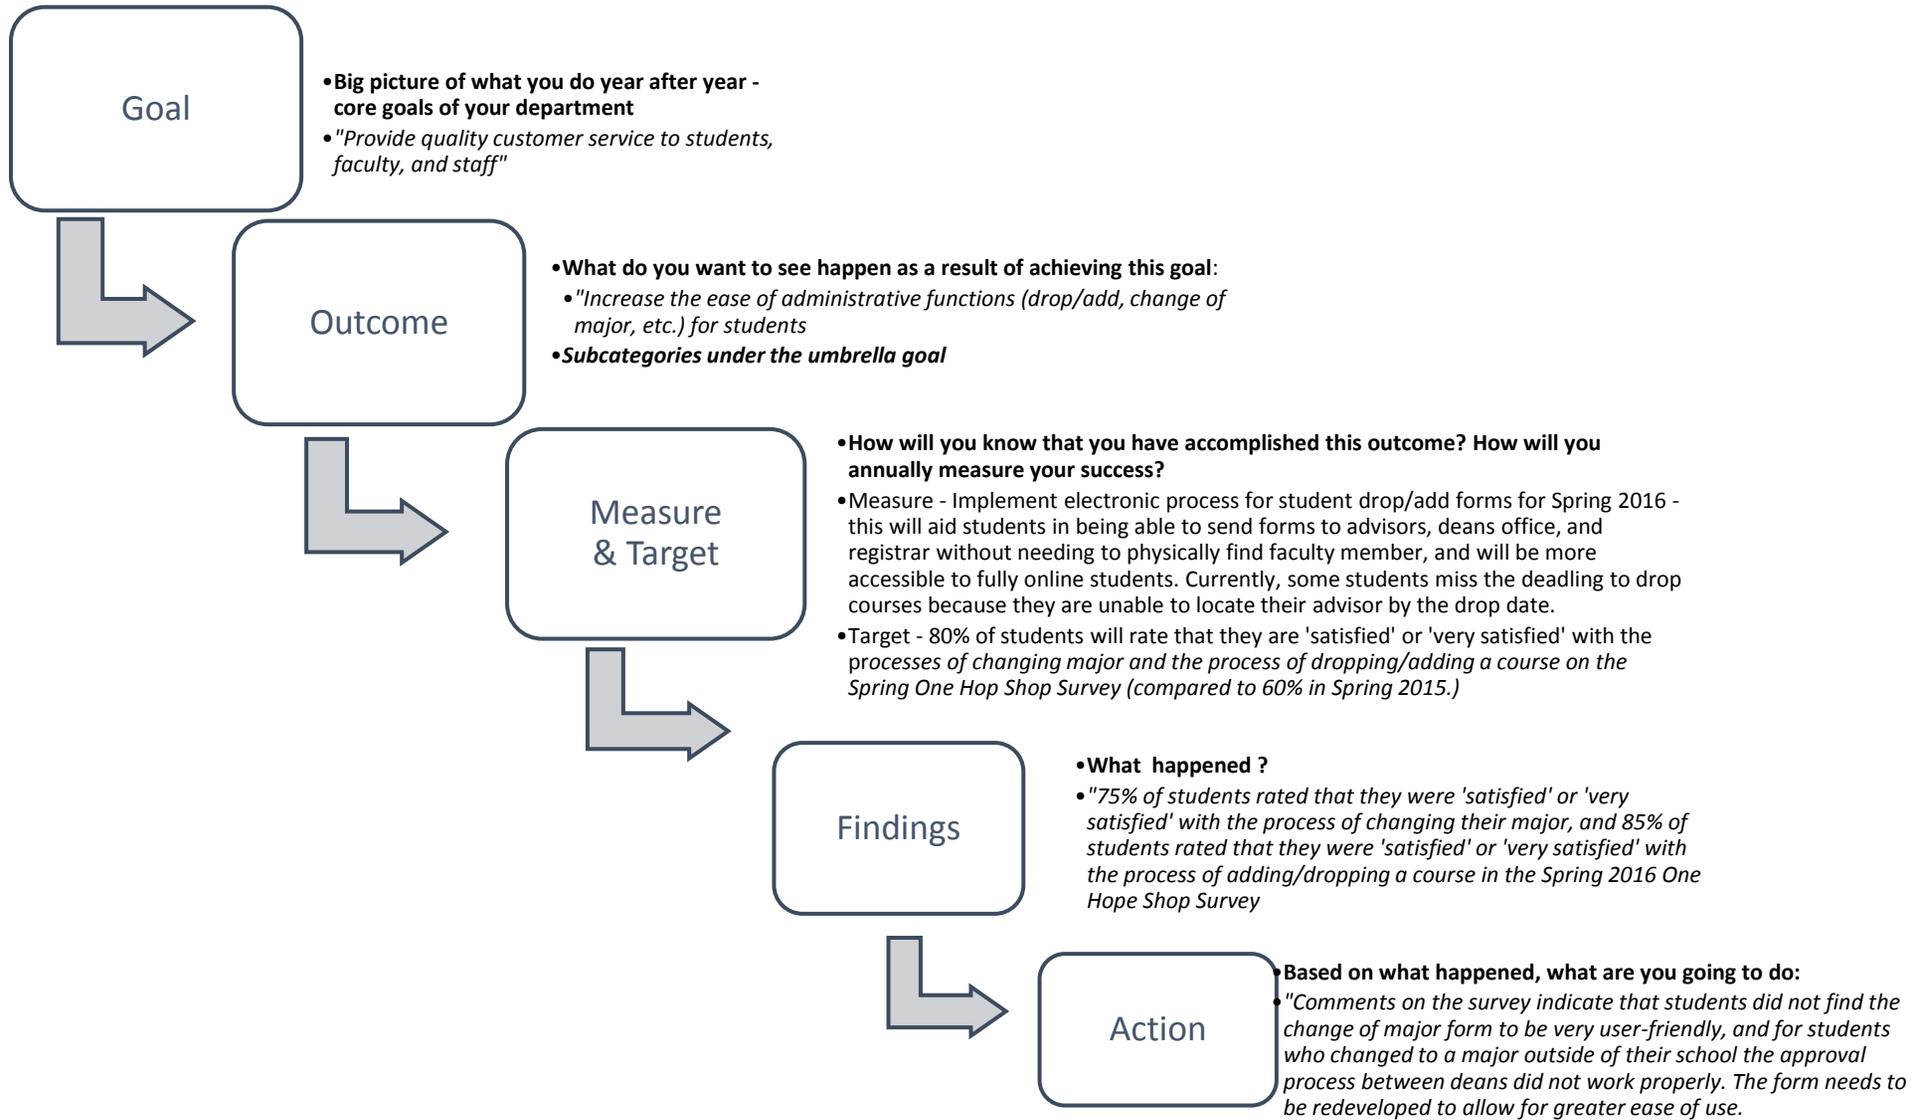

OUTCOME: Improve advisement of online students

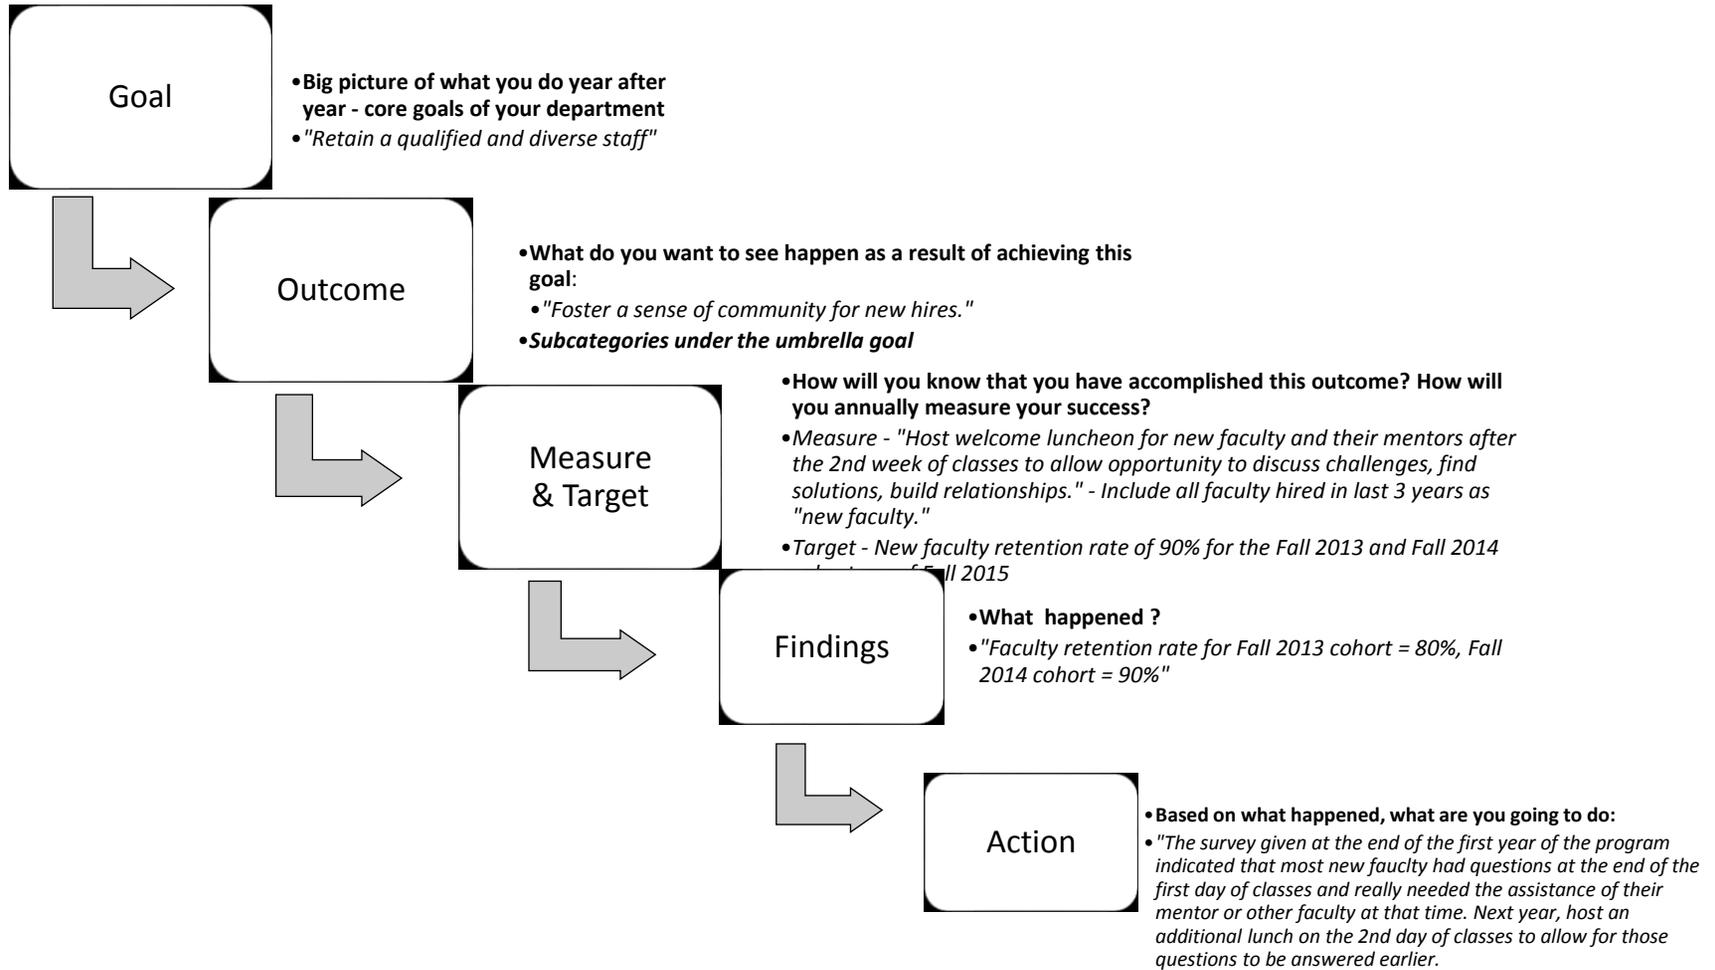

MEASURE: Develop Advising Toolkit for online students

Description of Measure: The Advising Toolkit, developed in collaboration with faculty advising fully online students, provides resources and strategies to engage and connect with students in a virtual environment. Toolkit will be available on the Advising Center webpage.

Target: All (9) program coordinators of fully online programs will utilize at least one advising strategy from the Toolkit. (*Note: Next cycle, evaluate effectiveness of toolkit/strategies used*)

PRACTICE FLOWCHART
