Syllabus Information

Use this page to maintain syllabus information, learning objectives, required materials, and technical requirements for the course.

VERY IMPORTANT TIP: To put in line breaks and hence make your syllabus more readable, use the symbol `
`.

For example, if you do the following:

This is the first line. `
`This is the second line.

Your syllabus will show as follows:

This is the first line.
This is the second line.

If you need to add more blank lines just put in additional `
`:

This is the first line. `

`This is the second line.

Your syllabus will show as follows:

This is the first line.
This is the second line.
