TRANSFER ARTICULATION AGREEMENT

BETWEEN

SUNY COLLEGE OF ENVIRONMENTAL SCIENCE AND FORESTRY

and

SUNY Canton

April 2017 — May 2020

STATEMENT OF UNDERSTANDING

This Transfer Articulation Agreement is designed to assist SUNY Canton faculty and staff in advising students on proper course selection to maximize transfer credit to the SUNY College of Environmental Science and Forestry (SUNY-ESF) Syracuse campus or The Ranger School campus in Wanakena.

Students who wish to transfer to SUNY-ESF may apply to one of the 21 bachelor degree programs at the Syracuse campus or one of the three associate degree programs at The Ranger School in Wanakena, NY. Bachelor of Science (B.S.) programs include Aquatic and Fisheries Science, Bioprocess Engineering, Biotechnology, Chemistry, Conservation Biology, Construction Management, Environmental Biology, Environmental Education and Interpretation, Environmental Health, Environmental Resources Engineering, Environmental Science, Environmental Studies, Forest Ecosystem Science, Forest Health, Forest Resources Management, Natural Resources Management, Paper Engineering, Renewable Materials Science, Sustainable Energy Management and Wildlife Science. The program in Landscape Architecture leads to a Bachelor of Landscape Architecture (B.L.A.) degree. Students may also transfer to The Ranger School campus to complete the second year of the Associate in Applied Science (A.A.S.) degree in Environmental and Natural Resources Conservation, Forest Technology, or Land Surveying Technology.

Students planning to transfer to SUNY-ESF should follow the recommended course requirements for their intended program of study as outlined in the SUNY-ESF/SUNY Canton Transfer Articulation Guidelines (TAG). They should seek transfer counseling from a designated SUNY Canton faculty or staff member or a SUNY-ESF Admissions Counselor for proper course selection, which varies by program of study. The SUNY-ESF/SUNY Canton Transfer Articulation Guidelines are available on the web at: <http://www.esf.edu/admissions/transfer/tags/canton.htm>. The SUNY-ESF Admissions Office will update this TAG on-line as changes occur to the programs of study at either institution.

Admission to the associate's degree programs at The Ranger School requires a 2.5 cumulative grade point average or higher and completion of all pre-requisite first-year courses as outlined in the SUNY-ESF/SUNY Canton Transfer Articulation Guidelines (TAG). Special admission consideration may be granted for students below a 2.5 grade point average and/or who are missing some of the required first-year courses on a case-by-case basis. Students may be required to participate in The Ranger School Summer Program prior to enrollment in order to successfully complete General Biology I and/or Trigonometry. SUNY Canton students or faculty advisors should contact the SUNY-ESF Admissions Office directly to discuss these and other special admission circumstances.

Admission to the bachelor degree programs at the Syracuse campus of SUNY-ESF requires a 2.8 cumulative grade point average or higher and completion of lower division core course work appropriate for the student's intended program of study. Admission to all engineering programs at SUNY-ESF is more competitive and students must have a minimum 3.0 cumulative grade point average and have completed all lower division course work for junior class standing. Students who follow the Transfer Articulation Guidelines will typically enter SUNY-ESF's Syracuse Campus with full junior class status. Students who are not able to complete all prerequisites prior to their desired semester of enrollment, or whose grade point average is below the minimum specified, may still be considered for admission on a case-by-case basis.

Students must achieve a grade of "C" or higher in order to transfer course work. Grades of less than "C" do not transfer. Additionally, students are expected to be prepared for Pre-Calculus level mathematics or higher for admission purposes. Students must submit the application for admission and all credentials by the recommended filing deadline for the semester they intend to enroll. Applications submitted after the recommended deadline will be considered on a space available basis.

Students should consult a SUNY-ESF Admissions Counselor if they have any questions regarding program of study requirements, transfer application process and criteria, or this agreement at 1-315-470-6600.

This agreement is in effect until May 31, 2020.

Transfer Articulation Agreement

Between

SUNY College of Environmental
Science and Forestry
Syracuse, NY

and

SUNY CANTON

APPROVED BY

SUNY CANTON:

Dr. Zvi Szafran
President

Douglas Scheidt, Ph.D.
Provost & Vice President of
Academic Affairs
