SOCI 320: Sociology of Health, Illness and Health Care

Created by: D. Muehl
Updated by: Kimberly Boyd
A. **TITLE:** Sociology of Health, Illness and Health Care

B. **COURSE NUMBER:** SOCI 320

C. **CREDIT HOURS:** 3 Lecture Hours per Week for 15 Weeks

D. **WRITING INTENSIVE COURSE:** No

E. **GER CATEGORY:** n/a

F. **SEMESTER(S) OFFERED:** Fall and Spring

G. **COURSE DESCRIPTION:**
   In this course using the sociological perspective, students will explore how social factors such as age, gender, social class and race / ethnicity influence personal experiences of health, illness, and health care utilization. This course challenges assumptions about health, illness and health care. Topics include the social construction of illness and health, a critique of the ‘sick role’, the meaning and experience of disability, chronic pain and chronic illness, an exploration of health care systems in the developed and developing worlds, and the challenges and opportunities facing both consumers and providers of health care in the 21st century.

H. **PRE-REQUISITES/CO-REQUISITES:** Junior level status; Introduction to Sociology (SOCI101) or Introduction to Gerontology (HLTH 104) or permission of instructor.

I. **STUDENT LEARNING OUTCOMES:**

<table>
<thead>
<tr>
<th>Course Student Learning Outcome [SLO]</th>
<th>ISLO &amp; Sub-Sets</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Analyze the social construction of illness and health, distinguishing topics such as the experience and meaning of illness, disability, chronic pain, mental illness, and chronic illness in different cultural settings.</td>
<td>#2 Critical Thinking [CA]</td>
</tr>
<tr>
