MASTER SYLLABUS

SSCI 306: ANIMALS, PEOPLE and SOCIETY

Created by: Christina M. Leshko

SCHOOL of BUSINESS AND LIBERAL ARTS
SOCIAL SCIENCES DEPARTMENT
Fall 2021
G. COURSE DESCRIPTION:
In this course students will critically explore the evolving relationship between humans and other animals. Applying an interdisciplinary framework, we will draw from scientific, philosophical, and cross-cultural approaches to engage topics from the field of Human Animal Studies. Discussion will focus on animal-human borders, animal rights, our relationship with wildlife, the link between animals and human oppression, and modern human-animal collaborations. We will explore the complexity of animal roles in society, and the varied meanings assigned to them, as pets, partners, entertainment, therapeutic and rehabilitative assistants, spiritual symbols, test subjects, and livestock. Students will have the opportunity to engage in discipline-specific research opportunities relating the significance of animals to their field, while also expanding their overall interdisciplinary knowledge.
