

Cassidy Antwi '24

Peer Mentor

My name is Cassidy Antwi, but I usually go by the first name Cassidy or Cass. I am in the Nursing program completing my BSN. I am set to graduate from SUNY Canton in 2024. I have a B. Tech. in Criminal Investigation with a minor in Forensic Science, and my intended goal is to attend medical school. I have always wanted to become a Forensic Scientist. Selecting Canton paved the way for opportunities such as being a part of EOP (Educational Opportunity Program), CSTEP (Collegiate Science & Technology Entry Program), and earning scholarships.

Mentoring is a mutually beneficial relationship between a mentor and a mentee, based on trust, guidance, and support. It involves a more experienced individual sharing their knowledge, skills, and wisdom with someone less experienced but eager to learn and grow. Like the Jump Start Program, I am in the EOP program and currently the SUNY Canton EOP Ambassador. As an Ambassador, I have participated in different opportunities such as recruiting prospective students, attending SUNY hosted events, and promoting EOP events/meetings on our campus. As mentioned before, SUNY Canton was a fantastic choice for me because it was cost-effective but still offered a wide variety of opportunities for improvement within my career and personal goals.

For me, Canton has served as a space I could find sanctuary away from home. I cherish SUNY Canton most for its peaceful scenery, open space, and slower pace of life. As a city girl, this atmosphere initially came as a culture shock, but I have come to love the natural beauty SUNY Canton campus upholds for its students. While I have enjoyed my time at Canton, I am excited for my final year as I plan to graduate and embark on my journey to a successful career. My goals for the upcoming year are to pass both the fall and spring semesters, achieve a GPA of 3.8, and gain experience through volunteer work. I would like to share any advice or be a listening ear as you make your mark through college.

**GREAT MAJORS,
GREAT CAREERS.**
