

## General Education Assessment – The Humanities – Updated Fall 2023

### GER 6 Humanities

Students will demonstrate:

- demonstrate knowledge of the conventions and methods of at least one of the humanities; and
- Recognize and analyze nuance and complexity of meaning through critical reflections on text, visual images, or artifacts.

#### Method:

A random selection will be chosen by the Director of Institutional Research by the end of the semester prior to the semester in which assessment is needed. A minimum 50% sampling rate will be used.

Instructors will develop and assign one of the following:

1. An essay question which allows students to demonstrate proficiency in all course objectives

OR

2. A short answer exam with separate questions, each of which will be designed to gauge the students' proficiency in a single course objective.

OR

3. A set of exam questions which allows students to demonstrate proficiency in course objectives.

Faculty will collect student artifacts, assess student proficiency utilizing the rubric (included below).

Results will be entered in SUNY Canton's Teams assessment repository.

For each measure and corresponding finding reported, please indicate the measure and finding is intended for GER 6 assessment data.

## General Education Assessment – The Humanities – Updated Fall 2023

### Data Collection Report

Instructor & Class \_\_\_\_\_

You are being asked to complete this form because you are teaching a course that fulfills SUNY Canton's General Education requirement under the category of The Arts. In order to fulfill that requirement, students are expected to meet specific student learning objectives. This form provides a method for documenting student achievement of these learning objectives.

#### Instructions

***Please complete this form for all GER learning objectives. Within each learning objective mapped to GER 6: Humanities, please complete cells for the assessment tools you used, a description of the tool(s) used, the overall results for the SLO, and a reflection/use of the findings: and leave the others blank.***

Please add any comments or suggestions about the form or the general education assessment process at the end of this form.

In addition to completing this form, please include these findings in your Teams assessment workspace, including your assignment guidelines, the rubric used for assessment of student work, as well as at least one student artifact for each level of proficiency (exceeds, meets, does not meet). Be sure to omit all identifying information to maintain student confidentiality.

Thank you!

If you have any questions about how to complete the form or need any clarification of learning objectives or about the General Education assessment process please contact Kirk Jones, [jonesk@canton.edu](mailto:jonesk@canton.edu), ex 7719, or Wil Rivers [riversw@canton.edu](mailto:riversw@canton.edu). Additional information about General Education assessment at SUNY Canton can be found at <http://www.canton.edu/provost/assessment/ger.htm>

**This form is due to Kirk Jones no later than one week after fall final grade submission.**

## General Education Assessment – The Humanities – Updated Fall 2023

### GER Assessment Policies

Faculty and students will periodically be required to engage in assessment activities to ensure that the General Education learning outcomes are being met.

- GER student learning outcomes are assessed on a three year cycle through the courses designated as meeting that GER.
  - Any instructor (full-time or adjunct) teaching any course with a GER designator (online or face-to-face) may be called to participate in GER assessment activities.
  - A random sample of GER designated courses are selected by the Office of Institutional Effectiveness during the spring semester preceding the GER assessment year. If a faculty member is teaching two of the same course they have the option of choosing either section for assessment.
- **Protocol for creating a new course for GER approval:**
    - For a course to be accepted as a GER course, the GER assessment methodology must be attached to the course proposal as it moves forward to curriculum committee. GER mapping to course SLOs must be present in course proposal.

## General Education Assessment – The Humanities – Updated Fall 2023

- Additional, indicate which course objective will be used to GER assessment.
- Upon approval, the course objectives must be mapped to the GER the course is approved for
  
- **Protocol for Methodology Revision**
  - Faculty who wish to revise their GER methodology must submit proposed methodology to the GER committee by the fifth week of the semester before their assessment cycle begins.
  - The GER committee will review and provide feedback for revision, and if necessary request a meeting with the GER coordinator. They will provide feedback within six weeks.
  - Resubmission of the revised methodology must occur by the last day of the semester prior to the assessment cycle the methodology will be used in.
  - If the methodology does not comply with the needs of the campus and SUNY standards, the previous methodology will be employed for the assessment cycle.
