

Health Care Management

Bachelor of Science

While medical personnel such as doctors, nurses, and other clinical staff continue to be in demand, healthcare administrators are equally needed to offer behind-the-scenes support that improves efficiency and quality of healthcare while controlling costs.

About Our Program

- Jefferson Community College students in the A.S. Health Care Management degree will transfer seamlessly to SUNY Canton's B.S. in Health Care Management.
- Gain healthcare industry knowledge in the area of healthcare facility management, finance, economics, public health, information technology, and managed care as well as develop skills to understand the complex healthcare system
- Customize your curriculum: develop skills in a particular area such as psychology, sociology, or human services
- Focus on business fundamentals and healthcare-related skills regarding healthcare finance and economics, technology, managed care, quality standards, and foundations of management and business
