

Louisa Lewis

Program Coordinator

Student Success Instructor

I have been working in Residence Life for seven years and have worked with Jump Start students for three years. I believe in empowering students by realizing their own talents and promoting use of the resources around them. Outside of Res Life, I have supported students on campus through different organizations including, most late, EMS.

I am a first-generation US Citizen as well as college graduate. I have moved throughout the east coast but my longest stretch has been in New Jersey. When I am not working, I love to travel, try new foods and work with my hands (wood work, event décor, etcetera.)

Educational experience and degrees:

Physical Therapy Assistant, AAS SUNY Canton

Bachelors of Science, B.S., Montclair State University

Educational Leadership, M. ED, St. Lawrence University

GREAT MAJORS,
GREAT CAREERS.
