

Scholarship Requirement Contract

In order to retain your scholarship, you must meet these requirements and understand the following:

- 1. It is pertinent that the recipient maintain a *cumulative* grade point average of a 2.5 GPA to retain this scholarship beyond one year.** *Your cumulative GPA is your combined average, across all semesters and programs of study.*
- 2. In the event that the recipient withdraws or is dismissed from the College, during any semester, their scholarship will be revoked.**
- 3. The recipient must be a full-time matriculated student, enrolled in 12 credits or more, in order to retain this scholarship.** *In the event that your study status drops below full-time (enrolled in less than 12 credits), your original scholarship award will be revoked. If your study status has involuntarily changed, due to program restrictions or academic credit history, you may be considered for a discretionary scholarship award, not intended to match or exceed the amount originally awarded.*
- 4. It is unlikely that the recipient will continue receiving scholarship if inactive, for any length of time.** *If this lapse in enrollment is the result of an extenuating circumstance, such as medical or military leave, you may be evaluated for re-award. Re-awarding is discretionary and dependent upon funds available, reason for deactivation, and length of deactivation period.*
- 5. In order to maintain receipt of a Housing Grant award, the Excellence Scholarship, or the Presidential Scholarship the recipient is required to reside on-campus for the duration of their study. If the student chooses to reside off-campus, their scholarship will be revoked.**
- 6. If the recipient anticipates a change to his/her enrollment or study status and believes that the circumstances concerning this change warrant special consideration, he/she may request accommodation by contacting the Scholarship Committee, in writing, at scholarship@canton.edu, prior to the beginning of the affected semester.** *Again, re-awarding is discretionary and dependent upon funds available, reason for deactivation, and length of deactivation period.*
