

Aliance Tedonfouet `21

Yaoundé, Cameroon

My name is Aliance Tedonfouet, and I am in my final semester of the Finance BBA program. I am an international student from Cameroon, and this is my second semester at SUNY Canton. I transferred here after completing my first three years of college in a private university in my home country (Cameroon). SUNY Canton was a great fit for me because the school offers very hand-on programs. The campus is beautiful, and the environment is very appealing for studies. The lecturers are nice, and they always strive to make sure that their students are successful. The Canton community is also a welcoming one, and people around here made me feel as if I never left home.

I am currently a student ambassador, and I also work as a peer tutor in the Business and Accounting Lab of the school. These have helped me to get to know more students around the campus and helped me improve my communication skills. It also gave me exposure to different cultures and experiences that helped me understand people better. When I am not in class or working, I enjoy hanging out with my friends, travelling and discovering new people and places.

GREAT MAJORS,
GREAT CAREERS.
