CANTON
STATE UNIVERSITY OF NEW YORK

Angel Amadis ‘28
Bronx, NY

My Name is Angel Amadis, and I am an EOP student studying Electrical Construction & Maintenance. I plan to graduate in 2028, and work toward building a career, owning a house, and starting a family.

I enjoy my program because it is hands-on, and allows me to build and learn through real experience. My professors are supportive and help prepare me for my future career.

This is my first year as a student ambassador, and I have enjoyed meeting new people and being involved on campus, from enjoying nature to attending events around campus. I also enjoy playing soccer, and may join the college team in the future.

GREAT MAJORS,
GREAT CAREERS.
