Benjamin Mambou `21

Yaoundé, Cameroon

My name is Benjamin Joel Kevin Mambou. I was born in Yaoundé, the capital of Cameroon. After completing three years at PK FOKAM in Yaoundé, I am finishing my Bachelor of Business Administration in Management at SUNY Canton, while also minoring in Economics. Last semester, I came up with a project called the Canton Entrepreneurial Vision (CEV). CEV is a for-credit, entrepreneurial program for students who wish to start their own businesses. I am excited to bring my innovative ideas regarding entrepreneurship to the world of business. All of my professors are very approachable and available, and they want their students to be successful.

In addition to my academics, I am currently managing two part-time jobs and leadership roles on campus, including being a Resident Assistant and Student Ambassador. I am also an accomplished Jazz musician, who enjoys planning events for students, and I will be releasing my first album project this year. I love traveling and getting to know students around campus, as well as helping in recruiting new prospective students. It allows me to share my experiences and learn so much more from them.

**GREAT MAJORS,
GREAT CAREERS.**
