Daniel DePhilippis '24

Galloway, New Jersey

My name is Daniel DePhilippis, and I am a sophomore in the eSports Management program. I chose to come to SUNY Canton, based on its dedication to the future of video games and how they take eSports seriously. It is now becoming a booming industry. Prior to attending Canton, I was working in customer service and retail since my early high school days for over 7 years. I enjoy being able to provide a great experience to anyone that needs my help. This is my first year as a student ambassador. I like how it allows me to use my talents and skills to flourish. I enjoy the environment that Canton offers from the professors wanting you to succeed in life to your fellow peers wanting to help you out as well.

GREAT MAJORS,
GREAT CAREERS.
