

## Deanna Rosen '22

Clifton Park, NY

My name is Deanna M. Rosen. I am from Clifton Park, New York, and I am a junior in the Criminal Investigation program. I also hope to add a minor in Forensic Science. I came to SUNY Canton because they have a great Criminal Justice program. I love the classes, as they are hands-on, and the campus is smaller, which is something I preferred. Most of my professors have experience in the real world, as they were previous cops or investigators, which can be really useful information when teaching a certain subject. I love my classes, have met many great people over the past year, and I am glad to consider them my good friends.

I am a new Student Ambassador here at SUNY Canton. So far, it has been a great experience. I have met many great people along the way and cannot wait to work more with them. I am excited to learn more about this wonderful campus and to enlighten and inspire possible students to attend SUNY Canton. I always like to help people learn more and meet new people. In my free time, I like to chill out and watch TV, or even go on nature walks. I like the outdoors. I am also looking to become a member of a Criminal Justice club. One thing I enjoy about SUNY Canton is the great scenery around campus.

**GREAT MAJORS,  
GREAT CAREERS.**
