

Elijah Morse `28

Rouses Point, New York

Hello! My name is Elijah Morse, and I am a first year Electrical Engineering Technology student. I recently graduated in May of 2025 with my Liberal Arts Associates degree, and decided to come back to get my Bachelor's degree and a Minor in Math. I originally chose to come to SUNY Canton because it felt like the perfect distance from home, but ultimately decided to stay because of the beautiful campus and how the classes are run. In my major, there are lots of labs to properly prepare me in a variety of skills needed for my future job. At SUNY Canton, there is the organization IEEE, Institute of Electrical and Electronics Engineers, which allows students to attend massive conferences such as MODEX.

This is my first semester as a student ambassador, and I am already loving the workflow and how well it meshes with my class schedule. SUNY Canton offers a lot of different on-campus jobs and clubs, as well as events, all of which I firmly believe allows you to reach out and meet other students. If I wasn't a part of IEEE or work-study, I can say that I wouldn't have met half the people I have. I love to play video games with my friends or read some of the manga that the library has.

**GREAT MAJORS,  
GREAT CAREERS.**
