

Emily Frazier '24

Montpelier, Vermont

My name is Emily Frazier, and I am a senior in the Veterinary Technology program at SUNY Canton. Before transferring to Canton, I obtained a degree in Agricultural Business. Without knowing what I wanted to do with my degree, but knowing I wanted to work with animals, I decided on trying the veterinary medicine field. I chose to transfer to Canton because of the great hands-on and networking opportunities the school offers along with professors that genuinely care about the success of each student. Other than spending my time working on academics and being a student ambassador, I am also a captain of the Women's Soccer team.

GREAT MAJORS,
GREAT CAREERS.
