CANTON
STATE UNIVERSITY OF NEW YORK

Ethan Matthews ‘27

Gouverneur, New York

My name is Ethan Matthews, and I am in my third semester of the Game Design and Development program here at SUNY Canton.

I chose to come to SUNY Canton because the campus community feels so personal. All of my professors have experience working for game companies and openly share these lived experiences in the classroom.

As a non-traditional student, this is my third college experience, and SUNY Canton has been the most nurturing environment I’ve seen. There are constant opportunities for students to grow into their career and into the person they want to be.

This is my first semester as a student ambassador, and I already love meeting new prospective students and getting to share things I’ve learned about SUNY Canton and college life.

Outside of college, I love kayaking and walking around the nature of the north country with my wife.

GREAT MAJORS,
GREAT CAREERS.
