

Evan Velasquez '25

Middletown, New York

My name is Evan Velasquez, and I am a senior in the Game Design and Development program at SUNY Canton. My favorite video games are the Xenoblade Chronicles trilogy, and my favorite animes are Bleach and Attack on Titan. I love to explore and travel, and some of my favorite activities are fishing, hiking, reading manga, and hanging out with my friends. In Summer 2023, I studied abroad in Akita, Japan and learned how to speak some Japanese. My goals right now are to learn how to draw, speak Japanese fluently, and design a game by myself.

Through SUNY Canton, I have been able to do so much and meet so many people. I chose Canton because I have always yearned for the unrealistic, the imaginary, and the impossible. All of my classes are very hands-on, and I truly feel like I'm one step closer to my goal of creating a game after each class.

GREAT MAJORS,
GREAT CAREERS.
