Gabrielle Gyampoh '23

Middletown, New York

Hello everyone! My name is Gabrielle Gyampoh, and I am a Junior in the Criminal Investigations program here at SUNY Canton. Coming to SUNY Canton was honestly one of the best decisions I've ever made. One thing I noticed about SUNY Canton was that the Criminal Investigations program was very hands-on, and the professors here work hard to get students to succeed. Each professor in the CI program has had experience in the Law Enforcement field or the Criminal Justice field. In the Criminal Investigations program, I am able to engage in interesting labs, such as finger printing, blood splatter, and crime scene labs. Throughout this program, I am learning communication skills, techniques, and strategies that will be highly useful for my future in the Criminal Investigations field.

I am also in the Honor Roll Program here at SUNY Canton. Outside the classroom, I am an entrepreneur. At home, I own a small baking business, which I started after high school! I currently bake cakes, cookies, cupcakes and more! I am also interested in interior design and painting as well! I am also the Senator of ASU!

GREAT MAJORS,
GREAT CAREERS.
