STATE UNIVERSITY OF NEW YORK

Jaden Muniz ’26

Bronx, NY

Hello! My name is Jaden Muniz, and I am currently a senior in the Veterinary Science Technology (AAS) program and plan to continue my studies by finishing my B.B.A. in Veteri-nary Service Administration. I am originally from the Bronx, and I’ve always had a love for animals and supporting my community. At SUNY Canton, I stay very involved on cam-pus. I am currently the Student Online Representative for the Student Government Association (SGA), work as an Orienta-tion Leader, and am an active member of Greek Life. I also work in the Counselor Center, as well as in the Veterinary Pro-gram building, which gives me hands-on experience related to my field.

Outside of academics, I enjoy staying active at the gym, spending quality time with friends on campus, taking care of animals, playing video games, and editing content.

GREAT MAJORS,
GREAT CAREERS.
