CANTON
STATE UNIVERSITY OF NEW YORK

Kadence Bowman `30

Madrid, New York

Hello Everyone! My name is Kadence Bowman, and I am a freshman, majoring in Applied Psychology. I chose to come to SUNY Canton because it's a very well rounded community. I grew up around campus, as my mother works in the Admissions Office so I've became very familiar with many of the students and staff around campus. I've always been interested in the way people behave, process things, and just the why of things. Between my familiarity and accessibility of campus, plus the want of learning more, this ended up as the perfect college for me.

Outside of school, I also work at Mcdonald's. Mcdonald's was a great opportunity to prepare me for the social aspect of becoming a student ambassador. I am excited to meet new people, the prospective students and everyone along the way. Getting people familiar and comfortable with campus is my goal.

Besides work and school, I love animals, nature, music and hanging out with my friends.

GREAT MAJORS, GREAT CAREERS.
