Kaitlyn Trusty '21

Blauvelt, New York

My name is Kaitlyn Trusty, and I am in my senior year of the Civil and Environmental Engineering B.Tech program. I chose to come to SUNY Canton because I was blown away with all of the labs and resources the Engineering building had offered me. I knew I was going to get the best out of my education. All of my professors either have their doctorate degree or their professional engineers licenses — or both. Their primary goal is to always make sure that the students succeed and understand the curriculum they're learning. Outside of classes, I am a member of the Society of Women Engineers, the American Society of Civil Engineers Student Chapter, and the Steel Bridge Team. Additionally, I am a member of the Cross Country Team, as well as the team's Student Athletic Advisory Committee representative.

This is my second semester as a student ambassador. I am also the former Vice President of the Student Government Association. I love giving prospective students tours of a campus I've gotten to know and love. I'm grateful for being able to share my experiences with them. When I am not in class or working, I enjoy spending time with my friends and making trips to New York City when I'm at home!

**GREAT MAJORS,**  
**GREAT CAREERS.**
