

Kenneth Lakin '26

Bronx, New York

Hey everyone. My name is Kenneth Lakin. I'm a sophomore in the Management program here at SUNY Canton. Before attending college, I was at a loss for what I wanted to do with my life. How could I adopt the habits that a more successful version of myself in the future had? How could I discipline myself? By complete chance, I decided to attend Canton, and it was one of the best decisions of my life. The learning here is completely hands on, and the professors have actual work experience in the field that they're teaching. I was able to find myself through the school, and now expect to graduate with a bachelors in business. When I have free time to myself, apart from work or school, I'm always in the gym, skating, editing videos, or hanging out with my peers on campus. Take advantage of every opportunity this school gives you, and I hope to see you on campus!

**GREAT MAJORS,
GREAT CAREERS.**
