

Kenneth Lakin '26

Bronx, New York

Hey everyone. My name is Kenneth Lakin. I'm a senior in the Management program here at SUNY Canton. Before attending college, I was very directionless. How can I adopt the habits that a more successful version of myself in the future has? By complete chance, I decided to attend Canton, and it was one of the best decisions I've ever made for myself. I used this school as a way to cultivate the skills I would need for the real world and life after college. I was able to find myself through the school and all the extracurricular activities and dynamics around campus, as well as being a proud member of the Gamma Sigma Zeta Fraternity. I now expect to graduate with a Bachelors in Business. When I have free time to myself, apart from work or school, I'm always in the gym, skating, reading, or hanging out with my peers on campus. Take advantage of every opportunity this school gives you, and I hope to see you on campus!

**GREAT MAJORS,
GREAT CAREERS.**
