Kimberly George '22

East Setauket, New York

My name is Kimberly, and I attend SUNY Canton. I transferred into the Veterinary Technology program here. I previously studied at Suffolk County Community College, where I got my associate's degree and decided to finish my Bachelor's here because I really liked the campus, and they have the most advantageous Vet Tech program in New York. This is a great school with a beautiful campus and a great community that for me honestly became like another home away from home.

This is my second year as a student ambassador at SUNY Canton. I love the opportunity this job has given me to meet people and share what I've learned through my time here on this campus. There is so much here to discover, and working here allows me to help people uncover all the possibilities available to them when they come here.

GREAT MAJORS,
GREAT CAREERS.
