**Laura Clements '23**

**Cazenovia, New York**

My name is Laura Clements, and I am a Sophomore in the Mechatronics Technology BS program with a Math Minor. SUNY Canton was the perfect choice for me because the campus is so inviting, and I was able to find a major that allowed me to have a piece from each engineering field I was interested in. I have also joined clubs that can help me with my major and create relationships with students and professors on campus. SUNY Canton has given me opportunities to expand my comfort zone and improve my communication skills.

I am currently a Student Ambassador, a member of the Steel Bridge Team, a member of SWE, and a member of the women's volleyball team here at SUNY Canton. These clubs have allowed me to meet people in similar Engineering majors and have support from other women in Engineering. Being on the volleyball team has allowed me to connect with other people in the campus community. I enjoy meeting new people and learning about different new things each day.

**GREAT MAJORS,  
GREAT CAREERS.**
