

## Loica Nyamsi '23

Cameroon

My name is Nyamsi Loica, and I am a senior in the Finance program. SUNY Canton wasn't really a choice for me, but a must! And today, seeing how the different lecturers give their different courses, sincerely I do not regret coming here at SUNY Canton. The faculty members and students here are nice and helpful. One thing I noticed here was how lecturers of our main courses are doing their best to make their programs very hands-on and they are always available at all time to help students while motivating them too. This would be my last semester here at SUNY Canton, and I am so excited to get my Bachelor degree.

SUNY Canton gave me a great opportunity to move out of my comfort zone and learn many other skills. I am currently in some on-campus job that helped me improve that. I work as a tutor in Business and Accounting, Student representative at the College Association Board (C.A.B), Vice-president of the Student Government Association (S.G.A) and Student Ambassador. Apart from these jobs and school, I also love anything that concerns decoration and renovation, and I love singing and listening to music in my free time and visiting new places.

**GREAT MAJORS,  
GREAT CAREERS.**
