

Madisyn Reyome`26

Cherry Valley, New York

My name is Madisyn Reyome, and I'm in my third year of the Veterinary Technology Science program and have just started a minor in Applied Psychology. Out of all the schools I was accepted into, I decided that SUNY Canton was the best fit because of the atmosphere. I knew I wanted to go to a school that felt like home, but was not super close to home. The moment I stepped on campus for the first time, I knew this is where I belonged. Every-one was so welcoming, and the friends that I've made here feel like I've known them my whole life. At a very young age, I knew I wanted to work with animals when I was older, and to this day, it still holds true. SUNY Canton is helping me be able to make that dream a reality. Every day, I work closely with my professors who are either li-censed techs or veterinarians and have learned so much from them and all of the hands-on activities we do.

This is my fourth semester as a student ambassador. I love getting to meet new and prospective students and tell them all about my home away from home. I love SUNY Canton because there is never a dull moment on campus, whether it be an event put on by the College Activities Board (C.A.B.) or sporting event, something is always happening. When I am not working or in class you can find me hanging with friends outside, in my room reading or crocheting, or at the Cyber Café in the learning commons getting a tea and panini.

**GREAT MAJORS,
GREAT CAREERS.**
