

Mayella Rubin '25

Elmont, New York

My name is Mayella Rubin, and I am a '24 graduate from the Physical Therapist Assistant program. I am now pursuing my Bachelor's in the Health and Fitness Promotion Major and minor in Applied Psychology. I enjoy HEFI/PTA because of how hands on it is as well as getting to practice and apply my skills on my classmates. We have access to a variety of equipment that is used in actual clinics or training rooms. The small class sizes make learning more personable and allows me to establish good relationships with my professors. The HEFI/PTA professors make sure I am equipped with all the knowledge and skills I'll need before leaving Canton. I chose SUNY Canton because of all the opportunities and resources this campus provides as well as the hands-on learning.

This is my 6th semester as a Student Ambassador. I was previously a Resident Assistant for 3 semesters in the traditional dorms. I've worked as a Student Assistant under the Athletic Trainers here as well. I'm currently a Student Member of the College Association Board. I am a captain of the SUNY Canton Women's Soccer team and a member of the Women's Cross Country team as well. I love getting involved on campus and taking advantage of everything Canton has to offer.

**GREAT MAJORS,
GREAT CAREERS.**
