

Michaela Villegas '26

Rensselaer, New York

My name is Michaela Villegas, and I am a sophomore in the Applied Psychology program here at SUNY Canton. I picked SUNY Canton for many reasons, one of which was the people that go here. Everyone on campus is so welcoming and friendly to everyone, and it made me feel right at home. Another reason I chose SUNY Canton was the professors and the program itself, the Applied Psychology program had everything I was looking for, and after meeting some of the professors, I knew I made the right choice. Knowing that all my professors worked in the field at some point in their careers made me feel more comfortable and excited to learn from them. When I'm not in classes, I love walking into town on the foot bridges and exploring the town. Even though moving up here was a big change for me, I don't regret it one bit. Picking SUNY Canton as my college was definitely the right choice, and now as a student ambassador, I get to show everyone around and talk about everything that I love here!

GREAT MAJORS,  
GREAT CAREERS.
