

## Mikey Rogers '29

Chittenango, New York

Hello! My name is Mikey Rogers, and this is my second semester here at SUNY Canton in the Game Design and Development program. When it came time to start looking at schools my senior year, I felt unmotivated and stressed because there were too many to pick from (not to mention that I had zero clue on what I wanted to do yet). I decided to attend Canton after they had come to visit my high school, and I really clicked with the idea of going there. I was introduced to the Game Design and Development program here and instantly had my heart set on coming here. Attending SUNY Canton has let me get one step closer to my dreams of being an artist and being able to put something out there for the world to see! Since attending here, I have been able to connect with people I couldn't have imagined being able to meet back in my hometown, and have been able to make close friends easily. My favorite thing to do around campus is to go for walks, hang out in the lounge with my friends and play games together, and to just sit outside and bask in the air. I am excited to be able to spend the next 3 years studying at Canton!
