Natalie Baxter '26

Glens Falls, New York

My name is Natalie Baxter, and I am a second semester sophomore in the Health & Fitness Promotion B.S. program. I am looking to go into physical therapy or occupational therapy school after my four years here are finished. I also have a minor in Psychology. I chose to come to SUNY Canton for a multitude of reasons. The size of Canton is the perfect size for me, and I love the atmosphere of the North Country. Additionally, I knew SUNY Canton was the best option to prepare me for the career fields I am interested in pursuing. My professors are dedicated to my success. Outside of class, I am a part of the Outdoor Adventure Club on campus. I also work as a mentor for the Academic Recovery Program here on campus, and I am on the women's lacrosse team.

This is my first semester working as a student ambassador and my second semester working as an Academic Recovery Program mentor. I love displaying the pride I have for my school and meeting prospective students. Meeting prospective students allows me to tell my experiences on campus as a student athlete, while also meeting new people. When I am outside of the office or classroom, I like to play lacrosse or do other outdoor activities surrounding the Canton area.

GREAT MAJORS,
GREAT CAREERS.
