

Paige Euson `24

Marathon, New York

My name is Paige Euson, and I am a senior in the Health & Fitness Promotion major. I am also minoring in Applied Psychology and Mathematics. I chose to come to SUNY Canton because I loved the community oriented feeling I felt when I first walked on campus. SUNY Canton immediately became my home away from home. I loved that each major is very hands-on and would prepare me for a career after college. The professors are all very helpful. They are very approachable and want their students to succeed. Outside of classes, I am a sister of one of the sororities on campus, Kappa Xi Omega. We are very academically and community service oriented. I enjoy the bond I have been able to form with all of my sisters, especially knowing we are all there for each other to make sure we succeed academically and are able to give back to the community.

This is my second year as a student ambassador. I am also the current President for the College Activities Board (C.A.B.). I love getting to know students around campus, as well as meeting new prospective students. It allows me to share my experiences and learn some of theirs as well. When I am not in class or working, I enjoy planning activities for everyone on campus, which in turn helps people meet new people they would have never met if they didn't come out to one of the events.

**GREAT MAJORS,
GREAT CAREERS.**
