Shanel Simpson

Wyandanch, New York

Hello Everyone! My name is Shanel Simpson, and I am a continuing senior, and this is my first year in the Veterinarian Technology program here at SUNY Canton. I transferred here after being at a community college for two years. I only applied to SUNY Canton because this was the only school, I knew that had great reviews from its Vet Tech program and it is very hands on. All the other schools had good reviews, but SUNY Canton caught my eye since I was a senior in high school. All my professors come from different aspect of the Veterinarian field and one of them actually went through the program here. They all are very helpful in guiding us through the program. In this program I have learned to restrain animals, give injections, and animal anatomy.

I am also an RA here at SUNY Canton and the former Secretary of Black Student Union and I am also on the cheerleading team, which started last year. Outside of the classroom, I run my own business as a Herbalife Distributor, which is a nutrition company. I currently help people make their way to their fitness or financial goals as well as my own. I also work two jobs and I volunteer at my local animal shelters.

**GREAT MAJORS,  
GREAT CAREERS.**
