

Sydney Lonski '24

Penfield, New York

My name is Sydney Lonski, and I am a junior in the Forensic Criminology program here at SUNY Canton. I came to SUNY Canton because I love how the classes are smaller, which gives me more one-to-one time with my professors if I ever need help. One of my favorite things to do on campus is to go on long walks to the footbridge right behind the dorms and walk into town with my friends. When I was living on campus, I was very fortunate that SUNY Canton has special dorms that allowed me to bring my cats on campus. I am a huge animal lover. I brought my cat, Abby, with me to stay on campus, and I have three adorable dogs at home that I love to go on walks with.

When I am not studying, I am spending time with my friends and my sisters of AXO (Alpha Chi Omicron). Every semester, we love to do volunteer work and community service in St. Lawrence County. My favorite one is raising money through bake sales for the Renewal House, where domestic violence and sexual assault victims can seek shelter and a safe space. I am also a student ambassador for the Office of Admissions, where I give tours to prospective students and their families.

**GREAT MAJORS,  
GREAT CAREERS.**
