

Viktoria Pierre '25

Clifton Park, New York

My name is Viktoria Pierre, and I am a senior in the 4-year Veterinary Technology program. I am the youngest of four, and I am a Pisces. I care very much for others and love to make people smile. I am the Vice President of the College Activities Board, which allows me to help amazing things happen here on campus. I am also a part of Sister to Sister, which is an incredible club here at Canton. I have wanted to work with animals and care for them from a very early age. My love for animals led me to SUNY Canton's Vet Tech program. Not only did their excellent program bring me here, but so did their community.

My love for this school encouraged me to want to be more involved in the Roo community, which is why I applied to be a student ambassador, allowing me to share with prospective students how amazing this college truly is. I hope to continue to be involved on campus, maintain good grades, and make people smile during my time at Canton.

**GREAT MAJORS,
GREAT CAREERS.**
