Welcome to SUNY Canton!

This supplement was created to assist you throughout your academic journey at SUNY Canton. The information provided will help you greatly as you begin your studies. As you progress through your course of study, it will also become a valuable tool for discovering and utilizing all of the student support services and resources that are available to you. From accessing tutoring centers, to locating commuter lockers; to finding out about the latest campus events or career planning... this handbook contains brief summaries regarding all of the resources that make SUNY Canton a student-centered institution.

A critical individual in your academic planning, achievement, and graduation is your **academic advisor**. Your advisor is a faculty member that you can seek out for advice, voice concerns to, and plan your academic goals with. He or she is an individual who is available to you whenever you need guidance or assistance. It is very important to seek out your advisor as soon as you begin to experience difficulties—or if you simply have a question and need clarification. Your advisor will meet with you formally throughout the academic year, however, academic advisors are always available should you need their assistance. You may receive an email or phone call from your advisor throughout the semester regarding your academics. It is important to follow through and contact your advisor immediately. Your advisor is your coach and mentor, and wants you to succeed. Sometimes a five minute conversation can provide the insight and clarification you need to continue on your academic journey. Believe it or not, all of your academic advisors were once college students themselves, and know firsthand what it feels like to juggle college, work and life!

**Please take some time to review the contents of this handbook and welcome to SUNY Canton!**

## Meet Your Academic Dean!

On behalf of our entire faculty, staff, and student body, welcome!

We want each of you to be successful, to complete the program of study you have come here to pursue, and to leave SUNY Canton prepared for the workforce, or to continue your education. There are many areas on campus that can help you succeed. In order to get the most out of your college experience, there are a few basic steps that you, as a student, need to take:

- + **Attend class and avoid all unnecessary absences**
- + **Do your assignments throughout the semester and turn them in on time**
- + **Study course material all semester, don't just study when there is a test**
- + **Ask for help when you need it**
- + **Come to class prepared to contribute**
- + **Be a proactive rather than passive learner**
- + **Identify and resolve problems early**
- + **Take advantage of extracurricular activities the campus and community offer**

Finally, seek support from appropriate resources including your faculty advisor and those outlined in the following pages. Assuming that you do your part and use campus resources appropriately, we'll look forward to celebrating your accomplishments together at graduation.

## Section 5: Academic Excellence

We are very proud of our student's academic achievements and offer several ways to promote and acknowledge our honor students. Here is a brief summary of some of the ways we celebrate academic excellence on campus:

<u>Academic Excellence</u>	<u>Description</u>	<u>Information/Contact</u>
<p><b>SUNY Canton Honors Program</b></p> 	<p>The SUNY Canton Honors Program identifies the most academically promising students and provides them with both challenging and rigorous academic opportunities to stimulate and support the leadership potential and a sustaining community that recognizes the unique intellectual and emotional needs of gifted students.</p>	<p><a href="http://www.canton.edu/honors/">http://www.canton.edu/honors/</a></p> <p>Contact: Dr. Kelly Peterson Honors Program Director <a href="mailto:dehautk@canton.edu">dehautk@canton.edu</a> Phone: 315-386-7544</p>
<p><b>Living/Learning Communities</b></p> 	<p>The residence halls provide students with living/learning environments. Each hall has three wings of student rooms which are clustered around a central common area. Specific floors in each building have been designated as theme living areas.
