Tiffany Hobby '21

Bronx, New York

Hello all, my name is Tiffany Hobby and I'm from the Bronx, NY. As of right now I am a senior here at SUNY Canton. I am currently majoring in Applied Psychology with a minor in Early Childhood Studies and I plan on graduating with my bachelor's degree in the Fall semester of 2021. Recently I have been inducted into the SUNY Canton Chi Alpha Epsilon Honor Society, which is a huge accomplishment for me. I made the decision to further my education at SUNY Canton because I wanted to move far away from home and explore what the world had to offer me on my own terms, and SUNY Canton provided me with that.

When I started going to school here, I was in a boot, due to a broken ankle and it brought me many challenges; however, my professors and various staff members provided me with so much support and love that kept me going. Since being in Canton, I have been provided with various resources and opportunities to help better myself mentally and academically. I am extremely excited to be a peer mentor for the Jump Start program because I want to be able to help guide students in this new journey in their lives. In addition, I want to be able to help all of them succeed here at SUNY Canton and understand that there is no limitation to their success!

**GREAT MAJORS,
GREAT CAREERS.**
